How to Customize Google Scholar with the Find It @UTMB link

Adding the Find It @UTMB link to your Google Scholar searches will help you connect to Library-subscribed full-text. You should only need to do this once.

1. Connect to http://scholar.google.com
2. Click on **Settings** at the top of the screen.
3. Click on **Library Links** in the menu on the left.
4. Enter utmb in the search box.
5. Click check marks next to:
   University of Texas Medical Branch at Galveston - Find it @ UTMB
   Open WorldCat – Library Search
6. Click **Save**.
7. You will now see a Find It @UTMB link in Google Scholar search results.
Using the Google Scholar Button – for Chrome, FireFox, and Safari

Install the Google Scholar button in Chrome, Firefox or Safari to move from regular Google searches into Google Scholar.

1. In your browser, look for settings and browser plug ins. Use the search feature to search for Google Scholar. Follow the prompts to install the plug-in.
   OR
   In your browser, use Google to search for “Google Scholar button”. Follow the prompts to install the plug-in.

2. Once installed you will see the Scholar icon to the right of the browser address bar.

3. Use Google, as usual. When you find an article title in the results:
   a. Highlight the article title
   b. Click the Google Scholar button in your browser
   c. Click the Find It @ UTMB link to get full text from the Moody Medical Library
